The solid shot were intended to batter down walls or heavy obstructions. Hollow projectiles, called shell and shrapnel, were for use against animate objects; to set fire to buildings and destroy lighter obstructions. Under the head of case shot we had grape and canister. Grape shot is no longer used; being superseded by the machine gun. Canister is simply a sheet iron case filled with bullets and is effective only at very short ranges. The foremost European military writer, Hohenloe, states that in the Franco-Prussian war, the batteries of the Prussian Guard expended about twenty-five thousand shells and one canister, and that this one canister was broken in transport.
