Filesize: 4 MB

Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Juliet Mertz)

NATIONAL DEFENSE: MORE CREDIBILITY NEEDED IN AIR FORCE REQUIREMENTS DETERMINATION PROCESS: PLRD-82-22

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.GAO reviewed the Air Force requirements computations system for reparable items to determine whether the information was based on accurate data and whether management s treatment of these data were reasonable. GAO found that requirements computations for half of those items studied during the buying stage were either understated or overstated leading to unnecessary and costly procurement actions. GAO believes that these problems stem from: (1) a lack of understanding of system operations, concepts, and philosophies; (2) a questionable quality control program; and (3) ineffective supervision. GAO further found that certain requirements determination policies and regulations were unclear. Also, the requirements were often based on inaccurate, incomplete, or out-of-date information.
